

Hicksons advises on successful VC seed fundraising round for Asseti

Hicksons has recently advised Asseti on a **A\$2.5m** (US\$1.65m) seed round, led by investor Tidal Ventures (Australian-US venture capital firm). The capital injection will support product growth (AI-powered intelligent asset management platform) and expansion into the United States.

Corporate & Commercial Partner, **Adam Henderson** led the capital raise, working closely with Associate **Julia White**, and Solicitor **Katarina Di Costanzo**.

The team was supported by Workplace Relations, Employment & Safety Partner, **Warwick Ryan**, Senior Associate, **Helen Sexton** and Associate, **Alex Beal**.

Aonghus Stevens, CEO of Asseti comments on his experience working with Hicksons:

“Our experience with the Hicksons team during our seed capital raise was exceptional. Hicksons consistently provided high-quality work and helped get the deal done in a timely manner. Their responsiveness and relationship management skills helped manage all parties and resulted in a great outcome.”

We are excited to see Asseti continue to grow, and work towards being the leader across Intelligent Asset Management.
